Supporting Life

Company Profile

We are India's Widest Joint Replacement Implants (Uncemented & Cemented), Trauma (Titanium (ASTM F4), Medical Grade 5, ELI & SS316L) & Bone Cement manufacturing company. Since our inception in 1991, we have been manufacturing Orthopaedic Implants & Instruments for overseas and domestic markets. KLD is a respected brand for Orthopaedic & Traumatology and is synonymous with Quality Reliability, Consistency & Service.

KLD implants are manufactured in Titanium 60/4 (ELI) and Stainless Steel 316L conforming to ASTM Standards.

We are equipped with a full-fledged manufacturing & quality assurance facility in New Delhi, India. We provide the widest spectrum of unique implant geometries to engineer to even the rarest of rare cases. Our products recreate the anatomic reality of the body in joint fixation technology, which improves mobility and greatly enhances the quality of life.

KLD-Implants are consumer friendly, easy to implant, versatile and give real value for money.

Certifications

> KLD has recently launched India's First Indigenous Antibiotic Acrylic Bone-Cement: Pearl in collaboration with Indian Institute Of Technology (IIT, Delhi) & All India Institute of Medical Sciences (AIIMS, Delhi)

> KLD is the only Indian Company which is providing 100% individually packed STERILE implants.
